Index to Volume 37

Author index*

A

Abdou, N. I., McKenna, J. M., and Hildreth, E. A., 117 (Abst.)
Aisenberg, A. C., *39* (Abst.)
Akester, A. R. (*See* Parish, W. E., et al.), *23* (Abst.)
Allansmith, M., Wymer, B., and Prieto, G., 114 (Abst.)
Allen, I. V., *31* (Abst.)
Anderson, J., Gray, K., Middleton, D., and Young, J., *14* (Abst.)
Angevine, C. C. (*See* Condemi and Angevine), 105 (Abst.)
Arbesman, C. E. (*See* Kobayashi, S., et al.), 122 (Abst.)
—. (*See* Kunz, M. L., et al.), 99 (Abst.)
—. (*See* Langlois, C., et al.), 359
—. (*See* Reisman, R. E., et al.), 106 (Abst.)
—. (*See* Rose, N. R., et al.), 112 (Abst.)
—. (*See* Shulman, S., et al.), 350
—. (*See* Wicher, K., et al.), 120 (Abst.), 329
Arena, J. (*See* Waisbren and Arena), *16* (Abst.)
Arkins, J. A., and Hirsch, S. R., 90
Armitage, J. S. (*See* Mitchell and Armitage), *35* (Abst.)
Arquembourg, P. C., (*See* Salvaggio, J. E., et al.), 107 (Abst.)
Austen, K. F., and Sheffer, A. L., *16* (Abst.)
—. (*See* Spuzic, I., et al.), 75

B

Baise, R. (*See* Quintero, J. M., et al.), 84
Ball, W. C., Jr. (*See* Ramirez, R. J., et al.), *42* (Abst.)
Banovitz, J. (*See* Kind and Banovitz), 113 (Abst.)
Baram, P. (*See* Mayron, L. W., et al.), 116 (Abst.)
—. (*See* Selcow, J. E., et al.), 113 (Abst.)
Barkai-Golan, R. (*See* Kantor, S. Z., et al.), 65
Bassenge, E. (*See* Chiba, C., et al.), *22* (Abst.)
Baum, J. (*See* Patterson, R., et al.), 295
Baumal, R. (*See* Broder, I., et al.), 116 (Abst.)
Bauschard, F. D., Ebken, R. K., and Levine, M. I., 105 (Abst.)
—. (*See* Ebken, R. K., et al.), 104 (Abst.)
Beall, G. N., *13* (Abst.)
—. (*See* Zaid and Beall), 101 (Abst.)
Beam, L. R., Marcy, J. H., and Mansmann, H. C., *26* (Abst.)
—. (*See* Criep and Beam), *7* (Abst.)
Becker, R. J. (*See* Feinberg, A. R., et al.), 108 (Abst.)
Bendel, W. L., Jr. (*See* Kochan and Bendel), 284
Benjamini, E. (*See* Feingold, B. F., et al.), 114 (Abst.)
Berne, B. H., *39* (Abst.)
Bernstein, I. L., and Safferman, R. S., 106 (Abst.)
—. (*See* Pecora, L. J., et al.), 204
Berrens, L., and Bleumink, E., *45* (Abst.)
—, Morris, J. H., and Versie, R., *36* (Abst.)
Bierman, C. W., 111 (Abst.)
Bigelsen, F. (*See* Reisman, R. E., et al.), 106 (Abst.)
Bilbo, R. (*See* Parker, C., et al.), *11* (Abst.)
Bing, R. (*See* Chiba, C., et al.), *22* (Abst.)
Björnberg, A., and Gisslen, H., *36* (Abst.)
Bleumink, E. (*See* Berrens and Bleumink), *45* (Abst.)
Bloch, K. J. (*See* Spuzic, I., et al.), 75
Bobitt, J. R., Schechter, H., and Pollak, V. E., *6* (Abst.)
Boesman, M. (*See* Fireman, P., et al.), 123 (Abst.)
Breheman, J. C., *13* (Abst.)
Broder, I., Baumal, R., and Keystone, E., 116 (Abst.)
Brodzhagen, H. (*See* Osmundsen and Brodzhagen), *12* (Abst.)
Bronnestam, R., and Hallberg, T., *15* (Abst.)
Bronsky, D., and Dunn, Y. O. L., *29* (Abst.)
Bronsky, E. A. (*See* Claman and Bronsky), 117 (Abst.)
Brown, E. G., Ipsen, J., and Popovits, C., *10* (Abst.)
Buckley, R. H., and Metzgar, R. S., 118 (Abst.)
Buechner, H. A. (*See* Salvaggio, J. E., et al.), 107 (Abst.)
Bulger, R. J., (*See* Schrier and Bulger), *29* (Abst.)
—. (*See* Schrier, R. W., et al.), *44* (Abst.)
Burnham, T. K. (*See* Neblett, T. R., et al.), *36* (Abst.)
Burrell, R. G. (*See* Quintero, J. M., et al.), 84
Busser, R. J. (*See* Heimlich, E. M., et al.), 103 (Abst.)

*January, pp. 1-64; February, pp. 65-126; March, pp. 127-186; April, pp. 187-252; May, pp. 253-320; June, pp. 321-392.

Abstracts: January, pp. *1-8*; February, pp. *9-16*; March, pp. *17-24*; April, pp. *25-32*; May, pp. *33-40*; June, pp. *41-48*.

Subject index*

A

Acetyl-beta-methylcholine, dose response to, in asthma and hay fever subjects and nonatopic volunteers. Studies with quantitative inhalation challenge technique (Felarca and Itkin), 223
  and histamine in obstructive airway disease, nonspecificity of bronchoconstricting effect of (Klein and Salvaggio), 158
Adrenal function in hypersensitive asthmatics, effect of synthetic corticotrophic polypeptide on, *18* (Abst.)
  suppression, steroid-induced, effect of intravenously injected endotoxin on eosinophils and other leukocytes in, 101 (Abst.)
Adrenalitis, chronic, with bronchial asthma, *18* (Abst.)
Aerosol desensitization and spontaneous resensitization of actively sensitized guinea pigs, 125 (Abst.)
  methacholine, as test for bronchial asthma, *11* (Abst.)
Agglutination test with ragweed pollen (Wicher et al.), 329
Air, extrapulmonary, as complication of asthma in children, 111 (Abst.)
Airborne allergens, response of asthmatics in Arad, Israel, to (Kantor et al.), 65
Airway, cross-sectional nasal, instrument for measuring effective (Connell), 127
  disease, obstructive, nonspecificity of bronchoconstricting effect of histamine and acetyl-beta-methylcholine in (Klein and Salvaggio), 158
  nasal, response to exercise, 103 (Abst.)
  obstruction, pulmonary, in asthmatic children, radiologic assessment of, 110 (Abst.)
Albumin, bovine serum, commonly used methods for detecting antibodies to, in human serum, 115 (Abst.)
Alcoholic liver disease, active, and viral hepatitis, immunoglobulin in, *47* (Abst.)
Algae, green, sensitivity of skin and bronchial mucosae to, 106 (Abst.)
Alkylation and reduction, effect on allergen-combining properties of reaginic antibody (Ishizaka et al.), 135
Allergen applied to denuded skin surface, accumulation of eosinophils as allergic response (Fowler and Lowell), 19
  combining properties of reaginic antibody, effect of reduction and alkylation on (Ishizaka et al.), 135
Allergenic extract, specific effect of injections of: diminution of eosinophilotactic response, 100 (Abst.)
Allergens, airborne, response of asthmatics in Arad, Israel, to (Kantor et al.), 65
  dimethyl sulfoxide as penetrant carrier through intact human skin, 126 (Abst.)
Allergic asthma, bronchiolitis, relationship between (Zweiman et al.), 48
  reactor to penicillin, detection by immunological tests, 99 (Abst.)
Allergy, insulin, use of various insulins in, *5* (Abst.)
  milk, diagnosis of, *4* (Abst.)
Alum-precipitated pyridine ragweed extract, effect on guinea pigs (Gordon and Mansmann), 264
Aminophylline, effect on respiratory-center sensitivity in Cheyne-Stokes respiration and pulmonary emphysema, *28* (Abst.)
Anamnestic response to tetanus toxoid in man, suppression by chloramphenicol, 7 (Abst.)
Anaphylactic death after administration of triphenylmethane dye to determine burn depth, *12* (Abst.)
Anaphylactoid purpura, experimental production of, *47* (Abst.)
  shock induced by oral penicillin and resulting in Gerstmann's syndrome, *13* (Abst.)
Anaphylaxis, passive cutaneous, comparison with Arthus reactivity after single dose: effect of alum-precipitated pyridine ragweed extract on guinea pigs (Gordon and Mansmann), 264
  response of human smooth muscle in Schultz-Dale experiments (Tollackson and Frick), 195
  roentgenographic demonstration of bronchospasm in, *23* (Abst.)
Anemia, secondary, and susceptibility to hydrocarbon combustion products, *20* (Abst.)

*January, pp. 1-64; February, pp. 65-126; March, pp. 127-186; April, pp. 187-252; May, pp. 253-320; June, pp. 321-392.

Abstracts: January, pp. *1-8*; February, pp. *9-16*; March, pp. *17-24*; April, pp. *25-32*; May, pp. *33-40*; June, pp. *41-48*.

Angioneurotic edema, hereditary, detection by demonstration of reduction in second component of human complement, *16* (Abst.)
superior vena cava syndrome masquerading as, 105 (Abst.)
Announcements, 64, 96, 186, 251, 366
Anti-anti-inflammation concept, *20* (Abst.)
Antibodies, anti-insulin, in human sera, histoimmunological techniques for detecting, *38* (Abst.)
to bovine serum albumin, commonly used methods for detecting, in human serum, 115 (Abst.)
BSA, use of DMSO to develop, 125 (Abst.)
circulating, to dietary proteins in ulcerative colitis, *24* (Abst.)
in coccidioidomycosis, immunoelectrophoretic properties, *30* (Abst.)
to sinus tissue in chronic bronchial asthma, detection of (Quintero et al.), 84
skin-sensitizing, in autoimmune thyroiditis, 118 (Abst.)
metabolism of intradermally administered, 123 (Abst.)
Antibody, anti-DNA, association of lupuslike syndrome induced by procaine amide with, *8* (Abst.)
antigen-, soluble complexes, in vitro bioassay for, 116 (Abst.)
human, to heterologous serum proteins, characterization of, 115 (Abst.)
production in atopic individuals, effect of 6-mercaptopurine on (Vanselow et al.), 145
focal, by transferred spleen cells in irradiated mice, *15* (Abst.)
reaginic, allergen-combining properties of, effect of reduction and alkylation on (Ishizaka et al.), 135
human, physicochemical properties and antigenic structure, 120, 121 (Absts.)
response, immunization and, in newborn infant: pertussis inoculation within twenty-four hours of birth, *31* (Abst.)
skin-sensitizing, and γA protein, relationship between, in ragweed-allergic individuals (Perelmutter et al.), 236
titer, following injection therapy, changes in, 123 (Abst.)
Anti-DNA antibody, association of lupuslike syndrome induced by procaine amide with, *8* (Abst.)
Antigen(s), absence of cellular localization in delayed hypersensitivity, *46* (Abst.)
E, treatment of ragweed hay fever with, 103 (Abst.)
Antigen(s)—Cont'd
extract of *Aspergillus fumigatus* in aspergillosis or other pulmonary diseases, precipitins against, *15* (Abst.)
hymenoptera: immunological comparison of venoms, venom sac extracts, and whole-insect extracts, *20* (Abst.)
ragweed, purified, induction of immediate and delayed skin reactivity with emulsion of, 108 (Abst.)
stimulated proliferation in lymphoid and myeloid tissues from immunized rabbits, *30* (Abst.)
Antigen-antibody complexes, soluble, in vitro bioassay for, 116 (Abst.)
Antigenic relationships between crude extracts and purified fractions of ragweed pollen (Lidd and Farr), 54
structure and physicochemical properties of human reaginic antibody, 120, 121 (Absts.)
Antihistamine and asthmalytic compounds, *32* (Abst.)
Anti-insulin antibodies in human sera, histoimmunological techniques for detecting, *38* (Abst.)
Antilymphocyte and antithymus sera, comparison of effect of, 118 (Abst.)
Antiserum and skin and tumor homografts, interactions of: immunological homograft enhancement, *39* (Abst.)
Antithymus and antilymphocyte sera, comparison of effect of, 118 (Abst.)
Arad, Israel, response of asthmatics to airborne allergens in (Kantor et al.), 65
Arthus reactivity, comparison of passive cutaneous anaphylaxis with, after single dose: effect of alum-precipitated pyridine ragweed extract on guinea pigs (Gordon and Mansmann), 264
Artificial fever in treatment of allergic diseases, *48* (Abst.)
Aspergillosis or other pulmonary diseases, precipitins against antigen extract of *Aspergillus fumigatus* in, *15* (Abst.)
Aspergillus fumigatus in aspergillosis or other pulmonary diseases, precipitins against antigen extract of, *15* (Abst.)
Asthma, allergic, relationship between bronchiolitis and (Zweiman et al.), 48
and allergic rhinitis, epidemiology of, *27* (Abst.)
associated with urticaria pigmentosa, unusual case (McKee et al.), 38
breathing mechanics in, *27* (Abst.)

Asthma—Cont'd
bronchial, acute, sodium bicarbonate used in treatment of, *26* (Abst.)
chronic adrenalitis with, *18* (Abst.)
detection of antibodies to sinus tissue in (Quintero et al.), 84
effectiveness of 6-mercaptopurine in (Arkins and Hirsch), 90
improvement in, not reflected in forced expiratory volume, *34* (Abst.)
methacholine aerosol as test for, *11* (Abst.)
childhood, exercise response test in, 103 (Abst.)
in children, extrapulmonary air as complication of, 111 (Abst.)
in Philadelphia, epidemiology of, 111 (Abst.)
and hay fever subjects and nonatopic volunteers, dose response to acetyl-beta-methylcholine in (Felarca and Itkin), 223
infectious, bacterial vaccine and, *2* (Abst.)
intractable, with and without chronic overinflation of lungs, pulmonary diffusing capacity, membrane diffusing capacity, and capillary blood volume in (Pecora et al.), 204
longitudinal study, clinical methods for (Falliers et al.), 1
New Orleans epidemic: comparison of involved and uninvolved individuals, 111 (Abst.)
severity of, statistical computation of numerical indices for grading (Falliers et al.), 10
short stature, and elevated γ_1A-globulins, *10* (Abst.)
—status asthmaticus, medically irreversible, treated with paralysis and controlled respiration, 26 (Abst.)
study, New Orleans, *42* (Abst.)
Yokohama, significance of, *10* (Abst.)
Asthmalytic and antihistamine compounds, *32* (Abst.)
Asthmatic children, comparison of climate and specific hyposensitization treatment in, *34* (Abst.)
controlled exercise in, *26* (Abst.)
posterior orientation of vectorcardiogram in, 109 (Abst.)
radiologic assessment of pulmonary airway obstruction in, 110 (Abst.)
patients, hospitalized, effect of exercise on (Itkin and Nacman), 253
hospitalized, 15 year study of, 110 (Abst.)
Asthmatics in Arad, Israel, response to airborne allergens (Kantor et al.), 65
hypersensitive, effect of synthetic corticotrophic polypeptide on adrenal function in, *18* (Abst.)
Athyreotic cretin fed soybean formula, thyroid refractoriness in, *21* (Abst.)
Atopic allergens, spectroscopic evidence for N-glycosidic linkages in, *45* (Abst.)
children, cutaneous vascular reactivity in, *35* (Abst.)
dermatitis, guanethidine in treatment of, delayed blanch phenomenon in atopic and nonatopic individuals, *43* (Abst.)
nonallergic factors in (Winkelmann), 29
individuals, effect of 6-mercaptopurine on antibody production in (Vanselow et al.), 145
and nonatopic individuals, blanch phenomenon in, *43* (Abst.)
patients, properties of immunoglobulins of sera from, 120 (Abst.)
in vitro sensitization of smooth muscle by sera from: pharmacologic and physiologic studies, 122 (Abst.)
sera, human, use of monkey lung tissue for in vitro detection of reagins in, 122 (Abst.)
Atopy, systemic sensitization of subhuman primates as model of, 122 (Abst.)
Autoantibodies, organ-specific, in reagin-containing sera from allergic patients, *23* (Abst.)
Autoimmune mechanism in diseases of respiratory tract, *15* (Abst.)
thyroiditis, skin-sensitizing antibodies in, 118 (Abst.)
Autoimmunity and thyrotoxicosis, *14* (Abst.)

B

Bacilli, gram-negative, shock associated with bacteremia due to, *16* (Abst.)
Bacteremia due to gram-negative bacilli, shock associated with, *16* (Abst.)
Bacterial infection and effects of chemoprophylaxis in chronic pulmonary emphysema: chemoprophylaxis with daily chloramphenicol, *40* (Abst.)
vaccine and infectious asthma, *2* (Abst.)
Bagassosis, precipitins against extracts of crude bagasse in serum of patients with, 107 (Abst.)
Basophil degranulation test, indirect, evaluation of, *6* (Abst.)
Bee, fractionation of whole body and venom sac extracts for skin testing (Shulman et al.), 350
Beekeepers, immunological studies of, 106 (Abst.)
Benzidine, bis-diazotized, hemagglutination reaction, effect of sequence of erythrocyte sensitization on (Gold et al.), 311

Beta-adrenergic blockade, effect on bronchial response of hay fever subjects to ragweed aerosol, 102 (Abst.)
to histamine and methacholine, 101 (Abst.)
blocking agents, species and strain differences in hypersensitivity to pharmacological mediators produced by, 101 (Abst.)
$Beta_{1c}$ globulin in childhood nephrotic syndrome: diagnosis of progressive glomerulonephritis, *21* (Abst.)
$Beta_{1c-1a}$ globulin in renal disease, measurement of, 116 (Abst.)
Bioassay, in vitro, for soluble antigen-antibody complexes, 116 (Abst.)
Biologic consequences of immediate type hypersensitivity transferred from man to monkey (Patterson et al.), 295
Biological behavior and stability of reaginic antibodies, effect of freezing, thawing, and lyophilizing reaginic sera, 121 (Abst.)
Biologically active materials in pollen extracts, 113 (Abst.)
Bis-diazotized benzidine hemagglutination reaction, effect of sequence of erythrocyte sensitization on, 115 (Abst.), (Gold et al.), 311
Blanch phenomenon in atopic and nonatopic individuals, *43* (Abst.)
Blood volume, capillary, pulmonary diffusing capacity, and membrane diffusing capacity in intractable asthma with and without chronic overinflation of lungs (Pecora et al.), 204
Body surface cooling, transient, recumbency, and induced obstruction, effects in allergic rhinitis (Solomon), 216
Bovine serum albumin, commonly used methods for detecting antibodies to, in human serum, 115 (Abst.)
Breathing mechanics in asthma, *27* (Abst.)
Bronchial asthma, acute, sodium bicarbonate in treatment of, *26* (Abst.)
chronic adrenalitis with, *18* (Abst.)
detection of antibodies to sinus tissue in (Quintero et al.), 84
effectiveness of 6-mercaptopurine in (Arkins and Hirsch), 90
improvement in, not reflected in forced expiratory volume, *34* (Abst.)
methacholine aerosol as test for, *11* (Abst.)
hypersensitivity to *Candida albicans* (Itkin and Dennis), 187
mucosae and skin, sensitivity to green algae, 106 (Abst.)
reactivity and "law of initial value," 109 (Abst.)
Bronchial—Cont'd
response of hay fever subjects to ragweed aerosol, effect of beta-adrenergic blockade on, 102 (Abst.)
to histamine and methacholine, effect of beta-adrenergic blockade on, 101 (Abst.)
Bronchiolitis and allergic asthma, relationship between (Zweiman et al.), 48
Bronchoconstricting effect of histamine and acetyl-beta-methylcholine in obstructive airway disease, nonspecificity of (Klein and Salvaggio), 158
Bronchopulmonary lavage in man, *42* (Abst.)
Bronchospasm in anaphylaxis, roentgenographic demonstration of, *23* (Abst.)
BSA antibodies, use of DMSO to develop, 125 (Abst.)
Burn depth, anaphylactic death after administration of triphenylmethane dye to determine, *12* (Abst.)

C

Candida albicans, bronchial hypersensitivity to (Itkin and Dennis), 187
Capillary blood volume, pulmonary diffusing capacity, and membrane diffusing capacity, in intractable asthma with and without chronic overinflation of lungs (Pecora et al.), 204
Cardiac pulmonary edema, pulmonary reactions simulating, caused by nitrofurantoin, *28* (Abst.)
Carisoprodol and meprobamate, cross-reaction of, *12* (Abst.)
Carrier specificity of tuberculin-type reaction to trivalent chromium, *44* (Abst.)
Cellular localization of antigen, absence in delayed hypersensitivity, *46* (Abst.)
Challenge technique, quantitative-inhalation, studies with. Dose response to acetyl-beta-methylcholine in asthma and hay fever subjects and nonatopic volunteers (Felarca and Itkin), 223
Chemoprophylaxis with daily chloramphenicol, effects in bacterial infection and chronic pulmonary emphysema, *40* (Abst.)
Cheyne-Stokes respiration and pulmonary emphysema, effect of aminophylline on respiratory-center sensitivity in, *28* (Abst.)
Childhood asthma, exercise response test in, 103 (Abst.)
Chills and fever as reaction to procainamide hydrochloride therapy, *40* (Abst.)

Chloramphenicol, daily, chemoprophylaxis with, effects in bacterial infection and chronic pulmonary emphysema, *40* (Abst.)
suppression of anamnestic response to tetanus toxoid in man by, *7* (Abst.)
Chloroquine: mechanism of action upon immune phenomena, *36* (Abst.)
Chromatographically distinct reagins associated with γG globulins in sera of ragweed allergic individuals, 119 (Abst.)
Chromium, trivalent, carrier specificity of tuberculin-type reactions to, *44* (Abst.)
Chronic pulmonary emphysema and bacterial infection, effects of chemoprophylaxis with daily chloramphenicol in, *40* (Abst.)
Circumoval precipitins: localization by gel diffusion in serum infected with *S. mansoni*, *30* (Abst.)
Climate and specific hyposensitization treatment in asthmatic children, comparison of, *34* (Abst.)
Coccidioidomycosis, antibodies in, immunoelectrophoretic properties, *30* (Abst.)
Colitis, and regional ileitis, intestinal lactase deficiency in, *6* (Abst.)
ulcerative, circulating antibodies to dietary proteins in, *24* (Abst.)
Collagen of skin and flea saliva, reaction between, in induction of flea bite hypersensitivity, 114 (Abst.)
College students, frequency of allergies and positive skin tests among, 107 (Abst.)
Complement, human, detection of hereditary angioneurotic edema by demonstration of reduction in second component of, *16* (Abst.)
Contact dermatitis due to formaldehyde in clothing textiles, *19* (Abst.)
from neomycin and framycetin, *19* (Abst.)
sensitivity to malathion, *3* (Abst.)
Cooling, body surface, recumbency, and induced obstruction in allergic rhinitis and control subjects (Solomon), 216
Correspondence, 319
Corticotrophic polypeptide, synthetic, effect on adrenal function in hypersensitive asthmatics, *18* (Abst.)
Cortisone, effect on fever of delayed hypersensitivity, *31* (Abst.)
Cretin, athyreotic, fed soybean formula, thyroid refractoriness in, *21* (Abst.)
Cross-reaction of meprobamate, carisoprodol, *12* (Abst.)
Cross-sectional nasal airway, instrument for measuring effective (Connell), 127
Culture, tissue, of lymphocytes from allergic patients, 112 (Abst.)
Cutaneous vascular reactivity in atopic children, *35* (Abst.)

D

Dandruff allergen, human, complexity of house dust with special reference to presence of, *36* (Abst.)
Degranulation test, indirect basophil, evaluation of, *6* (Abst.)
Delayed hypersensitivity, tuberculin, in vitro detection of, 116 (Abst.)
Dermatitis, atopic, guanethidine in treatment of, delayed blanch phenomenon in atopic and nonatopic individuals, *43* (Abst.)
nonallergic factors in (Winkelmann), 29
contact, due to formaldehyde in clothing textiles, *19* (Abst.)
from neomycin and framycetin, *19* (Abst.)
from cross-reaction of meprobamate and carisoprodol, *12* (Abst.)
eczematous, influence of soap on, *43* (Abst.)
venenata from lichens, *35* (Abst.)
Dermographism: definition, demonstration, and prevalence, 104 (Abst.)
Desert area, Arad, Israel, response of asthmatics to airborne allergens in (Kantor et al.), 65
Dietary proteins in ulcerative colitis, circulating antibodies to, *24* (Abst.)
Diffusing capacity, pulmonary, membrane, and capillary blood volume in intractable asthma with and without chronic overinflation of lungs (Pecora et al.), 204
Dimethyl sulfoxide as penetrant carrier of allergens through intact human skin, 126 (Abst.)
DMSO, use to develop BSA antibodies, 125 (Abst.)
DNA, anti-, antibody, association of lupus-like syndrome induced by procaine amide with, *8* (Abst.)
Drug fever due to potassium iodide, *47* (Abst.)
Drug-induced liver disease, *29* (Abst.)
Dust, house, immunological studies of, 107 (Abst.)

E

Eckstein, Emanuel, obituary, 368
Eczematous dermatitis, influence of soap on, *43* (Abst.)

Edema, angioneurotic, hereditary, detection by demonstration of reduction in second component of human complement, *16* (Abst.)
superior vena cava syndrome masquerading as, 105 (Abst.)
Emphysema, familial, *46* (Abst.)
pulmonary, and Cheyne-Stokes respiration, effect of aminophylline on respiratory-center sensitivity in, *28* (Abst.)
chronic, and bacterial infection, effects of chemoprophylaxis with daily chloramphenicol in, *40* (Abst.)
Emulsion injection, effect of, *7* (Abst.)
of purified ragweed antigen, induction of immediate and delayed skin reactivity with, 108 (Abst.)
Endocarditis, bacterial, use of steroids in penicillin-sensitive patients with, *13* (Abst.)
Endotoxin, effect of intravenous injection on circulating eosinophils and other leukocytes in steroid-induced adrenal suppression, 101 (Abst.)
Enuresis, nocturnal, treatment regimen for, *13* (Abst.)
Enzyme synthesis, adaptive, inhibition of, as analogue of immunologic tolerance, *6* (Abst.)
Eosinophilotactic response, diminution of: specific effect of injections of allergenic extract, 100 (Abst.)
Eosinophils, accumulation, responsiveness to allergen applied to denuded skin surface (Fowler and Lowell), 19
count, direct, effect of acute salicylate intoxication on, *16* (Abst.)
and other leukocytes in steroid-induced adrenal suppression, effect of intravenously injected endotoxin on, 101 (Abst.)
morphologic changes in, in allergic disease, 100 (Abst.)
Epidemic asthma, New Orleans: comparison of involved and uninvolved individuals, 111 (Abst.)
study of, *42* (Abst.)
Epidemiology of asthma and allergic rhinitis, *27* (Abst.)
in children in Philadelphia, 111 (Abst.)
Erythrocyte sensitization, effect on bis-diazotized benzidine hemagglutination reaction (Gold et al.), 311
of sequence on bis-diazotized benzidine hemagglutination reaction, 115 (Abst.)
Exercise, controlled, in asthmatic children, *26* (Abst.)
effect on hospitalized asthmatic patient (Itkin and Nacman), 253
nasal airway response to, 103 (Abst.)
Exercise—Cont'd
response test in childhood asthma, 103 (Abst.)
Expiratory volume, forced, improvement in bronchial asthma not reflected in, *34* (Abst.)
Extracts, pollen, biologically active materials in, 113 (Abst.)
Extrapulmonary air as complication of asthma in children, 111 (Abst.)

F

Familial emphysema, *46* (Abst.)
Farmer's lung and "fog fever," *24* (Abst.)
Fever, artificial, in treatment of allergic diseases, *48* (Abst.)
and chills as reaction to procainamide hydrochloride therapy, *40* (Abst.)
of delayed hypersensitivity, effect of cortisone on, *31* (Abst.)
drug, due to potassium iodide, *47* (Abst.)
"fog," and farmer's lung, *24* (Abst.)
Flea bite hypersensitivity, role of skin in induction of, 114 (Abst.)
"Fog fever" and farmer's lung, *24* (Abst.)
Food allergy, significance of mast cells in nasal smears from patients with (Shioda and Mishima), 321
Foods, legume family, immunologic studies on, *38* (Abst.)
Forced expiratory volume, improvement in bronchial asthma not reflected in, *34* (Abst.)
Formaldehyde in clothing textiles, contact dermatitis due to, *19* (Abst.)
Framycetin, neomycin and, contact dermatitis from, *19* (Abst.)

G

Gamma-A-isohemagglutinin and γD-globulin, human, properties of reaginic antibody different from (Ishizaka et al.), 336
protein and skin-sensitizing antibody, relationship between, in ragweed-allergic individuals (Perelmutter et al.), 236
D-globulin, and γA-isohemagglutinin, human, properties of reaginic antibody different from (Ishizaka et al.), 336
G globulins in sera of ragweed allergic individuals, chromatographically distinct reagins associated with, 119 (Abst.)
globulin, nonspecific, effect on passive sensitization in vitro at different temperatures (Spuzic et al.), 75
Gel diffusion, localization by, in serum infected with *S. mansoni*, *30* (Abst.)

Gerstmann's syndrome, anaphylactoid shock induced by oral penicillin and resulting in, *13* (Abst.)

Globulin, $\beta_{1c\text{-}1a}$, in renal disease, measurement of, 116 (Abst.)

beta$_{1c}$, in childhood nephrotic syndrome: diagnosis of progressive glomerulonephritis, *21* (Abst.)

gamma, nonspecific, effect on passive sensitization in vitro at different temperatures (Spuzic et al.), 75

Globulins, elevated $_{\gamma 1}$A-, asthma, and short stature, *10* (Abst.)

γA and γG, antigenic difference of reaginic antibody from, 120 (Abst.)

γA- or γG-, association of reaginic activity with immunoglobulin other than (Ishizaka and Ishizaka), 169

γD-, and γA-isohemagglutinin, human, properties of reaginic antibody different from (Ishizaka et al.), 336

γG, in sera of ragweed allergic individuals, chromatographically distinct reagins associated with, 119 (Abst.)

Glomerulonephritis, progressive, diagnosis of: beta$_{1c}$ globulin in childhood nephrotic syndrome, *21* (Abst.)

N-glycosidic linkages, spectroscopic evidence for, in atopic allergens, *45* (Abst.)

Grafts, thymic, specific adoptive tolerance by, 117 (Abst.)

Gram-negative bacilli, shock associated with bacteremia due to, *16* (Abst.)

Guanethidine in treatment of atopic dermatitis, delayed blanch phenomenon in atopic and nonatopic individuals, *43* (Abst.)

H

Hair spray, inhaled, thesaurosis from, *5* (Abst.)

Hay fever and asthma subjects and nonatopic volunteers, dose response to acetyl-beta-methylcholine in (Felarca and Itkin), 223

ragweed, in children, effectiveness of hyposensitization therapy in, 104 (Abst.)

effectiveness and specificity of injection therapy in, *2* (Abst.)

relationship of pollen dosage to symptom reporting in children with, 104 (Abst.)

treatment by desensitization with antigen E, 103 (Abst.)

use of poison oak extract in, *10* (Abst.)

subjects, effect of beta-adrenergic blockade on bronchial response to ragweed aerosol, 102 (Abst.)

Hemagglutination reaction, bis-diazotized benzidine, effect of sequence of erythrocyte sensitization on, 115 (Abst.), (Gold et al.), 311

Hemagglutinins, 7S and 19S, circulating, to tuberculin PPD in human and guinea pig sera, 113 (Abst.)

Heparin, enhancement of passive sensitization in vitro of human leukocytes by, 112 (Abst.)

Hepatitis, viral, and active alcoholic liver disease, immunoglobulin in, *47* (Abst.)

Hereditary angioneurotic edema, detection by demonstration of reduction in second component of human complement, *16* (Abst.)

Heterogeneity of reagin, evidence for, 119 (Abst.)

Histamine and cetyl-beta-methylcholine in obstructive airway disease, nonspecificity of bronchoconstricting effect of (Klein and Salvaggio), 158

bound by serum proteins, *13* (Abst.)

and methacholine, effect of beta-adrenergic blockade on bronchial response to, 101 (Abst.)

wheal, hypnotic suggestion and (Levine et al.), 246

Histoimmunological techniques for detecting anti-insulin antibodies in human sera, *38* (Abst.)

Hodgkin's disease, lymphocyte transfer reactions in, *39* (Abst.)

Homograft enhancement, immunological: interactions of antiserum and skin and tumor homografts, *39* (Abst.)

Hospitalized asthmatic patients, 15 year study of, 110 (Abst.)

House dust, complexity of, special reference to presence of human dandruff allergen, *36* (Abst.)

extracts of, obtained from different geographical locations, evaluation of, *48* (Abst.)

immunological studies of, 107 (Abst.)

Huff, Dick Howard, obituary, 97

Hydrocarbon combustion products, secondary anemia and susceptibility to, *20* (Abst.)

Hymenoptera antigens: immunological comparison of venoms, venom sac extracts, and whole-insect extracts, *20* (Abst.)

Hypersensitivity, bronchial, to *Candida albicans* (Itkin and Dennis), 187

delayed, absence of cellular localization of antigen in, *46* (Abst.)

effect of cortisone on fever of, *31* (Abst.)

to penicillin in man, 98 (Abst.)

flea bite, role of skin in induction of, 114 (Abst.)

Hypersensitivity—Cont'd
immediate, transfer by lymphocytes from blood of ragweed-sensitive patients, 125 (Abst.)
type, biologic consequences of transfer from man to monkey (Patterson et al.), 295
leukocytic, and host susceptibility in streptococcal infection, 119 (Abst.)
penicillin, immunologic studies, 99 (Abst.)
tuberculin delayed, in vitro detection of, 116 (Abst.)
passive transfer of, in guinea pigs (Kochan and Bendel), 284
Hypnotic suggestion and histamine wheal (Levine et al.), 246
Hypogammaglobulinemia, sarcoidosis with, *29* (Abst.)
Hyposensitization, specific, and climate treatment in asthmatic children, comparison of, *34* (Abst.)
effect on serum and leukocyte reactivity to ragweed pollen, 124 (Abst.)
therapy in ragweed hay fever in children, effectiveness of, 104 (Abst.)

I

Ileitis, regional, and ulcerative colitis, intestinal lactase deficiency in, *6* (Abst.)
Immediate hypersensitivity, transfer by lymphocytes from blood of ragweed-sensitive patients, 125 (Abst.)
Immune phenomena, action of chloroquine upon, *36* (Abst.)
Immunization and antibody response in newborn infant: pertussis inoculation within twenty-four hours of birth, *31* (Abst.)
intensive, evaluation of possible adverse consequences, *21* (Abst.)
Immunized rabbits, antigen stimulated proliferation in lymphoid and myeloid tissues from, *30* (Abst.)
Immunoelectrophoretic properties of antibodies in coccidioidomycosis, *30* (Abst.)
Immunofluorescence in experimental and human renal disease, specificity of, *22* (Abst.)
Immunogenic differentiation of in vivo and in vitro grown *Mycobacterium tuberculosis*, *39* (Abst.)
Immunoglobulin other than γA- or γG-globulin, association of reaginic activity with (Ishizaka and Ishizaka), 169
repeated determinations in 15 individuals over 6 month period, 114 (Abst.)
unique, as carrier of reaginic activity, 121 (Abst.)
in viral hepatitis and active alcoholic liver disease, *47* (Abst.)
Immunoglobulins of sera from atopic patients, properties of, 120 (Abst.)
Immunologic defect in patients recovered from sarcoidosis, *32* (Abst.)
response, in myasthenia gravis, in thymectomized and nonthymectomized patients, *14* (Abst.)
studies on legume family of foods, *38* (Abst.)
tolerance, inhibition of adaptive enzyme synthesis as analogue of, *6* (Abst.)
Immunological comparison of venoms, venom sac extracts, and whole-insect extracts: hymenoptera antigens, *20* (Abst.)
homograft enhancement: interactions of antiserum and skin and tumor homografts, *39* (Abst.)
studies of beekeepers, 106 (Abst.)
of house dust, 107 (Abst.)
tests, detection of allergic reactor to penicillin by, 99 (Abst.)
Immunologically produced lymphopenia, *22* (Abst.)
Immunosuppressive therapy, tolerance produced in immunized mice, and potentiation by, 117 (Abst.)
Infection, streptococcal, leukocytic hypersensitivity and host susceptibility in, 119 (Abst.)
Infectious asthma, bacterial asthma and, *2* (Abst.)
Inflammation, anti-anti-, concept, *20* (Abst.)
Influenza vaccine, polyvalent: comparison of jet injection with intradermal and subcutaneous administration, *32* (Abst.)
Inhalation challenge technique, quantitative, studies with. Dose response to acetyl-beta-methylcholine in asthma and hay fever subjects and nonatopic volunteers (Felarca and Itkin), 223
Injection of allergenic extract, specific effect of: diminution of eosinophilotactic response, 100 (Abst.)
emulsion, effect of, *7* (Abst.)
therapy, changes in skin-sensitizing antibody titer following, 123 (Abst.)
in ragweed hay fever, effectiveness and specificity of, *2* (Abst.)
Inoculation, pertussis, within twenty-four hours of birth, immunization and antibody response, *31* (Abst.)
Insect allergy, skin sensitivity in, *27* (Abst.)
Insects, stinging, allergic response to. Fractionation of whole body and venom sac extracts of bee (Shulman et al.), 350
of wasp (Langlois et al.), 359
Instrument for measuring effective cross-sectional nasal airway (Connell), 127

Insulin allergy, use of various insulins in, *5* (Abst.)
anti-, antibodies in human sera, histoimmunological techniques for detecting, *38* (Abst.)
Interferon, circulating, after measles vaccination, *28* (Abst.)
Intestinal lactase deficiency in ulcerative colitis and regional ileitis, *6* (Abst.)
Intoxication, acute salicylate: effect on direct eosinophil count, *16* (Abst.)
Irradiated mice, antibody production by transferred spleen cells in, *15* (Abst.)
Isohemagglutinin, γA-, and γD-globulin, human, properties of reaginic antibody different from (Ishizaka et al.), 336
Israel, Arad, response of asthmatics to airborne allergens in (Kantor et al.), 65

L

Lactase deficiency, intestinal, in ulcerative colitis and regional ileitis, *6* (Abst.)
Lavage, bronchopulmonary, in man, *42* (Abst.)
Legume family of foods, immunologic studies on, *38* (Abst.)
Leukocyte reactivity to ragweed pollen, effect of specific hyposensitization on serum and, 124 (Abst.)
Leukocytes, eosinophils and other, in steroid-induced adrenal suppression, effect of intravenously injected endotoxin on, 101 (Abst.)
human, enhancement by heparin of passive sensitization in vitro of, 112 (Abst.)
Leukocytic hypersensitivity and host susceptibility in streptococcal infection, 119 (Abst.)
Lichens, dermatitis venenata from, *35* (Abst.)
Light protection and triprolidine, *12* (Abst.)
Liver disease, alcoholic, active, and viral hepatitis, immunoglobulin in, *47* (Abst.)
drug-induced, *29* (Abst.)
Longitudinal study of asthma, clinical methods for (Falliers et al.), 1
Lung, farmer's, and "fog fever," *24* (Abst.)
tissue, monkey, use for in vitro detection of reagins in human atopic sera, 122 (Abst.)
chronic overinflation of, pulmonary diffusing capacity, membrane diffusing capacity, and capillary blood volume in intractable asthma with and without (Pecora et al.), 204
Lupuslike syndrome induced by procaine amide, association with anti-DNA antibody, *8* (Abst.)
Lymphocyte transfer reactions in Hodgkin's disease, *39* (Abst.)
Lymphocytes from allergic patients, tissue culture of, 112 (Abst.)
blood of ragweed-sensitive patients, transfer of immediate hypersensitivity by, 125 (Abst.)
Lymphoid and myeloid tissues, antigen stimulated proliferation in, from immunized rabbits, *30* (Abst.)
Lymphopenia, immunologically produced, *22* (Abst.)
Lyophilizing, freezing, and thawing reaginic sera, effect on stability and biological behavior of reaginic antibodies, 121 (Abst.)

M

Malathion, contact sensitivity to, *3* (Abst.)
Mast cells in nasal smears from patients with food allergy, significance (Shioda and Mishima), 321
Measles vaccination, circulating interferon after, *28* (Abst.)
Membrane diffusing capacity, pulmonary diffusing capacity, and capillary blood volume in intractable asthma with and without chronic overinflation of lungs (Pecora et al.), 204
Meprobamate and carisoprodol, cross-reaction of, *12* (Abst.)
6-Mercaptopurine, effect on antibody production in atopic individuals (Vanselow et al.), 145
effectiveness in bronchial asthma (Arkins and Hirsch), 90
Metabolism of intradermally administered skin-sensitizing antibodies, 123 (Abst.)
Methacholine aerosol as test for bronchial asthma, *11* (Abst.)
and histamine, effect of beta-adrenergic blockade on bronchial response to, 101 (Abst.)
Milk allergy, diagnosis of, *4* (Abst.)
Minden, Bendix S., obituary, 252
Monkey lung tissue, use for in vitro detection of reagins in human atopic sera, 122 (Abst.)
Morphologic changes in eosinophils in allergic disease, 100 (Abst.)
Mucosae, skin and bronchial, sensitivity to green algae, 106 (Abst.)
Muscle, smooth, human, response in Schultz-Dale experiments (Tollackson and Frick), 195
in vitro sensitization by sera from atopic patients: pharmacologic and physiologic studies, 122 (Abst.)

Myasthenia gravis, immunologic response in thymectomized and nonthymectomized patients, *14* (Abst.)

Mycobacterium tuberculosis, immunogenic differentiation of in vivo and in vitro grown, *39* (Abst.)

Myeloid and lymphoid tissues, antigen stimulated proliferation in, from immunized rabbits, *30* (Abst.)

N

Nasal airway, cross-sectional, instrument for measuring effective (Connell), 127

response to exercise, 103 (Abst.)

constriction, method of measuring, 102 (Abst.)

smears from patients with food allergy, significance of mast cells in (Shioda and Mishima), 321

Necrotizing vasculitis, thiazides, cause of? *36* (Abst.)

Neomycin and framycetin, contact dermatitis from, *19* (Abst.)

Nephropathy associated with penicillin and homologues, *44* (Abst.)

Nephrotic syndrome, beta$_{1c}$ globulin in: diagnosis of progressive glomerulonephritis, *21* (Abst.)

New Orleans asthma study, *42* (Abst.)

epidemic asthma: comparison of involved and uninvolved individuals, 111 (Abst.)

Nitrofurantoin, pulmonary reactions simulating cardiac pulmonary edema caused by, *28* (Abst.)

Nocturnal enuresis, treatment regimen for, *13* (Abst.)

O

Obituaries, 97, 252, 367, 368

Obstruction, nasal, induced, transient body surface cooling, and recumbency, effects in allergic rhinitis (Solomon), 216

pulmonary airway, in asthmatic children, radiologic assessment of, 110 (Abst.)

Obstructive airway disease, nonspecificity of bronchoconstricting effect of histamine and acetyl-beta-methylcholine in (Klein and Salvaggio), 158

Organ-specific autoantibodies in reagin-containing sera from allergic patients, *23* (Abst.)

P

Pancreatitis, steroid-induced, *29* (Abst.)

Paralysis and controlled respiration, medically irreversible status asthmaticus treated with, *26* (Abst.)

Passive sensitization in vitro at different temperatures, effect of nonspecific gamma globulin on (Spuzic et al.) 75

of human leukocytes, enhancement by heparin of, 112 (Abst.)

transfer of tuberculin hypersensitivity in guinea pigs (Kochan and Bendel), 284

Passively sensitized monkeys, systemic allergic shock induced in, by intravenous injection of human allergy serum, *24* (Abst.)

Pathophysiology of ventilatory failure, *14* (Abst.)

Penicillin, allergic reactor to, detection by immunological tests, 99 (Abst.)

and homologues, nephropathy associated with, *44* (Abst.)

hypersensitivity, delayed, in man, to, 98 (Abst.)

immunologic studies, 99 (Abst.)

oral, anaphylactoid shock induced by, and resulting in Gerstmann's syndrome, *13* (Abst.)

Penicillin-sensitive patients with bacterial endocarditis, use of steroids in, *13* (Abst.)

Permeability increasing factor, studies on, 124 (Abst.)

Pertussis inoculation within twenty-four hours of birth, immunization and antibody response, *31* (Abst.)

Pharmacologic and physiologic studies: in vitro sensitization of smooth muscle by sera from atopic patients, 122 (Abst.)

Pharmacological mediators, hypersensitivity to, produced by beta-adrenergic blocking agents, species and strain differences in, 101 (Abst.)

Philadelphia, epidemiology of asthma in children in, 111 (Abst.)

Physicochemical properties and antigenic structure of human reaginic antibody, 120, 121 (Absts.)

of reaginic antibody. Association of reaginic activity with immunoglobulin other than γA- or γG-globulin (Ishizaka and Ishizaka), 169

different from human γA-isohemagglutinin and γD-globulin (Ishizaka et al.), 336

Physiologic and pharmacologic studies, in vitro sensitization of smooth muscle by sera from atopic patients, 122 (Abst.)

Poison oak extract in ragweed hay fever, use of, *10* (Abst.)

Pollen dosage, relationship to symptom reporting in children with ragweed hay fever, 104 (Abst.)

Pollen—Cont'd
extracts, biologically active materials in, 113 (Abst.)
ragweed, agglutination test with (Wicher et al.), 329
antigenic relationships between crude extracts and purified fractions of (Lidd and Farr), 54
effect of specific hyposensitization on serum and leukocyte reactivity to, 124 (Abst.)
Polypeptide, corticotrophic, synthetic, effect on adrenal function in hypersensitive asthmatics, *18* (Abst.)
Potassium iodide, drug fever due to, *47* (Abst.)
PPD, 0.005 mg., effect of repeated tuberculin skin testing in children with, 113 (Abst.)
tuberculin, in human and guinea pig sera, circulating 7S and 19S hemagglutinins to, 113 (Abst.)
Precipitins against antigen extract of *Aspergillus fumigatus* in aspergillosis or other pulmonary diseases, *15* (Abst.)
extracts of crude bagasse in serum of patients with bagassosis, 107 (Abst.)
circumoval: localization by gel diffusion in serum infected with *S. mansoni*, *30* (Abst.)
Primates, subhuman, systemic sensitization, as model of atopy, 122 (Abst.)
Procaine amide hydrochloride therapy, fever and chills as reaction to, *40* (Abst.)
lupuslike syndrome induced by, association with anti-DNA antibody, *8* (Abst.)
Proliferation, antigen stimulated, in lymphoid and myeloid tissues from immunized rabbits, *30* (Abst.)
Proteins, dietary, in ulcerative colitis, circulating antibodies to, *24* (Abst.)
γA, and skin-sensitizing antibody, relationship between, in ragweed-allergic individuals (Perelmutter et al.), 236
heterologous serum, characterization of human antibody to, 115 (Abst.)
serum, histamine bound by, *13* (Abst.)
Pulmonary airway obstruction in asthmatic children, radiologic assessment of, 110 (Abst.)
diffusing capacity, membrane diffusing capacity, and capillary blood volume in intractable asthma with and without chronic overinflation of lungs (Pecora et al.), 204
diseases, aspergillosis or other, precipitins against antigen extract of *Aspergillus fumigatus* in patients with, *15* (Abst.)
Pulmonary—Cont'd
emphysema and Cheyne-Stokes respiration, effect of aminophylline on respiratory-center sensitivity in, *28* (Abst.)
chronic, and bacterial infection, effects of chemoprophylaxis with daily chloramphenicol in, *40* (Abst.)
reactions simulating cardiac pulmonary edema caused by nitrofurantoin, *28* (Abst.)
Purpura, anaphylactoid, experimental production of, *47* (Abst.)
Pyridine, alum-precipitated, ragweed extract, effect on guinea pigs (Gordon and Mansmann), 264

R

Radiation, ultraviolet, and triprolidine, response of skin to, *11* (Abst.)
Radiologic techniques in assessment of pulmonary airway obstruction in asthmatic children, 110 (Abst.)
Ragweed aerosol, effect of beta-adrenergic blockade on bronchial response of hay fever subjects to, 102 (Abst.)
antigen, purified, emulsion, induction of immediate and delayed skin reactivity with, 108 (Abst.)
extract, alum-precipitated pyridine, effect on guinea pigs (Gordon and Mansmann), 264
hay fever in children, effectiveness of hyposensitization therapy in, 104 (Abst.)
effectiveness and specificity of injection therapy in, *2* (Abst.)
relationship of pollen dosage to symptom reporting in children with, 104 (Abst.)
treatment by desensitization with antigen E, 103 (Abst.)
use of poison oak extract in, *10* (Abst.)
pollen, agglutination test with (Wicher et al.), 329
crude extracts and purified fractions of, antigenic relationships between (Lidd and Farr), 54
effect of specific hyposensitization on serum and leukocyte reactivity to, 124 (Abst.)
reaginic sera, fractions obtained with Rivanol from, 120 (Abst.)
Ragweed-allergic individuals, chromatographically distinct reagins associated with γD globulins in sera of, 119 (Abst.)
relationship between skin-sensitizing antibody and γA protein in (Perelmutter et al.), 236
Ragweed-sensitive patients, transfer of immediate hypersensitivity by lymphocytes from blood of, 125 (Abst.)

Reagin(s), evidence for heterogeneity of, 119 (Abst.)
chromatographically distinct, associated with γG globulins in sera of ragweed allergic individuals, 119 (Abst.)
in human atopic sera, use of monkey lung tissue for in vitro detection of, 122 (Abst.)
Reagin-containing sera from allergic patients, organ-specific autoantibodies in, *23* (Abst.)
Reaginic activity, presence of unique immunoglobulin as carrier of, 121 (Abst.)
antibodies, stability and biological behavior of: effect of freezing, thawing, and lyophilizing reaginic sera, 121 (Abst.)
antibody, effect of reduction and alkylation on allergen-combining properties of (Ishizaka et al.), 135
human, physicochemical properties and antigenic structure of, 120, 121 (Absts.)
physicochemical properties of. Association of reaginic activity with immunoglobulin other than γA- or γG-globulin (Ishizaka and Ishizaka), 169
different from human γA-isohemagglutinin and γD-globulin (Ishizaka et al.), 336
sera, effect of freezing, thawing, and lyophilizing reaginic sera on stability and biological behavior of reaginic antibodies, 121 (Abst.)
ragweed, fractions obtained with Rivanol from, 120 (Abst.)
Recumbency, transient body surface cooling, and induced obstruction, effects in allergic rhinitis (Solomon), 216
Reduction and alkylation, effect on allergen-combining properties of reaginic antibody (Ishizaka et al.), 135
Renal disease, experimental and human, specificity of immunofluorescence in, *22* (Abst.)
measurement of $\beta_{1c\text{-}1a}$ globulin in, 116 (Abst.)
Resensitization, spontaneous, of actively sensitized guinea pigs, aerosol desensitization and, 125 (Abst.)
Respiratory allergy, sporobolomyces as cause of, *34* (Abst.)
center sensitivity, effect of aminophylline on, in Cheyne-Stokes respiration and pulmonary emphysema, *28* (Abst.)
tract, autoimmune mechanism in diseases of, *15* (Abst.)
Rhinitis, allergic, and asthma, epidemiology of, *27* (Abst.)
Rhinitis, allergic—Cont'd
transient body surface cooling, recumbency, and induced obstruction, effects in (Solomon), 216
Rivanol from ragweed reaginic sera, fractions obtained with, 120 (Abst.)
Roentgenographic demonstration of bronchospasm in anaphylaxis, *23* (Abst.)

S

Salicylate intoxication, acute: effect on direct eosinophil count, *16* (Abst.)
Saliva, flea, reaction between collagen of skin and, in induction of flea bite hypersensitivity, 114 (Abst.)
Sarcoidosis with hypogammaglobulinemia, *29* (Abst.)
immunologic defect in patients recovered from, *32* (Abst.)
Schaffer, Nathan, obituary, 367
Schultz-Dale experiments, response of human smooth muscle in (Tollackson and Frick), 195
Sensitivity, respiratory-center, effect of aminophylline on, in Cheyne-Stokes respiration and pulmonary emphysema, *28* (Abst.)
skin, in insect allergy, *27* (Abst.)
Sensitization, erythrocyte, effect on bis-diazotized benzidine hemagglutination reaction (Gold et al.), 311
Sera, human, histoimmunological techniques for detecting anti-insulin antibodies in, *38* (Abst.)
Serologic studies in case due to rabbit serum: serum sickness in man (Ortiz), 274
Serum, rabbit, serologic studies in case due to: serum sickness in man (Ortiz), 274
sickness in man: serologic studies in case due to rabbit serum (Ortiz), 274
Shock, anaphylactoid, induced by oral penicillin and resulting in Gerstmann's syndrome, *13* (Abst.)
associated with bacteremia due to gram-negative bacilli, *16* (Abst.)
systemic allergic, induced in monkeys passively sensitized by intravenous injection of human allergy serum, *24* (Abst.)
Sinus tissue, detection of antibodies to, in chronic bronchial asthma (Quintero et al.), 84
Skin and bronchial mucosae, sensitivity to green algae, 106 (Abst.)
intact human, dimethyl sulfoxide as penetrant carrier of allergens through, 126 (Abst.)
reactivity, immediate and delayed, induction with emulsion of purified ragweed antigen, 108 (Abst.)

Skin—Cont'd
response to ultraviolet radiation, triprolidine and, *11* (Abst.)
role in induction of flea bite hypersensitivity, 114 (Abst.)
sensitivity in insect allergy, *27* (Abst.)
surface, denuded, accumulation of eosinophils showing responsiveness to allergen applied to (Fowler and Lowell), 19
testing, repeated tuberculin, with 0.005 mg. PPD in children, effect of, 113 (Abst.)
tests, positive, and allergies among college students, frequency of, 107 (Abst.)
and tumor homografts, antiserum and, interactions of: immunological homograft enhancement, *39* (Abst.)
Skin-sensitizing antibodies in autoimmune thyroiditis, 118 (Abst.)
metabolism of intradermally administered, 123 (Abst.)
antibody and γA protein, relationship between, in ragweed-allergic individuals (Perelmutter et al.), 236
titer following injection therapy, changes in, 123 (Abst.)
S. mansoni, localization by gel diffusion in serum infected with, *30* (Abst.)
Smooth muscle, human, response in Schultz-Dale experiments (Tollackson and Frick), 195
in vitro sensitization by sera from atopic patients: pharmacologic and physiologic studies, 122 (Abst.)
Soap, influence on eczematous dermatitis, *43* (Abst.)
Sodium bicarbonate in treatment of acute bronchial asthma, *26* (Abst.)
Solar urticaria, idiopathic, action spectra in, *4* (Abst.)
Soybean formula, thyroid refractoriness in athyreotic cretin fed, *21* (Abst.)
Species and strain differences in hypersensitivity to pharmacological mediators produced by beta-adrenergic blocking agents, 101 (Abst.)
Spectra, action, in idiopathic solar urticaria, *4* (Abst.)
Spectroscopic evidence for N-glycosidic linkages in atopic allergens, *45* (Abst.)
Spleen cells, transferred, in irradiated mice, focal antibody production by, *15* (Abst.)
Sporobolomyces as cause of respiratory allergy, *34* (Abst.)
Statistical computation of numerical indices for grading severity of asthma (Falliers et al.), 10
Stature, short, asthma and elevated $_{1}$A-globulins, *10* (Abst.)
Status asthmaticus, medically irreversible, treated with paralysis and controlled respiration, *26* (Abst.)
Steroid analogues, suitability for alternate day steroid therapy, 108 (Abst.)
therapy, alternate day, evaluation of steroid analogues for, 108 (Abst.)
use in penicillin-sensitive patients with bacterial endocarditis, *13* (Abst.)
Steroid-induced adrenal suppression, effect of intravenously injected endotoxin on eosinophils and other leukocytes in, 101 (Abst.)
pancreatitis, *29* (Abst.)
Stinging insects, allergic response to. Fractionation of whole body and venom sac extracts of bee (Shulman et al.), 350
of wasp (Langlois et al.), 359
Streptococcal infection, leukocytic hypersensitivity and host susceptibility in, 119 (Abst.)
Subhuman primates, systemic sensitization, as model of atopy, 122 (Abst.)
Sunburn, action spectra in, *4* (Abst.)
Superior vena cava syndrome masquerading as angioneurotic edema, 105 (Abst.)
Systemic allergic shock induced in monkeys passively sensitized by intravenous injection of human allergy serum, *24* (Abst.)
vasculitis, clinical and pathological relationships, *37* (Abst.)
sensitization of subhuman primates as model of atopy, 122 (Abst.)

T

Temperatures, different, effect of nonspecific gamma globulin on passive sensitization in vitro at (Spuzic et al.), 75
Tetanus toxoid, suppression of anamnestic response to, in man by chloramphenicol, 7 (Abst.)
Textiles, clothing, contact dermatitis due to formaldehyde in, *19* (Abst.)
Thesaurosis from inhaled hair spray, *5* (Abst.)
Thiazides, cause of necrotizing vasculitis? *36* (Abst.)
Thymectomized and nonthymectomized patients, immunologic response in, in myasthenia gravis, *14* (Abst.)
Thymic grafts, specific adoptive tolerance by, 117 (Abst.)
Thyroid refractoriness in athyreotic cretin fed soybean formula, *21* (Abst.)
Thyroiditis, autoimmune, skin-sensitizing antibodies in, 118 (Abst.)
Thyrotoxicosis and autoimmunity, *14* (Abst.)

Tissue culture of lymphocytes from allergic patients, 112 (Abst.)
Tolerance produced in immunized mice, and potentiation by immunosuppressive therapy, 117 (Abst.)
specific adoptive, by thymic grafts, 117 (Abst.)
Toxoid, tetanus, suppression of anamnestic response to, in man by chloramphenicol, *7* (Abst.)
Transfer reactions, lymphocyte, in Hodgkin's disease, *39* (Abst.)
Transfusion reactions, urticarial, 106 (Abst.)
Triphenylmethane dye to determine burn depth, anaphylactic death after administration of, *12* (Abst.)
Triprolidine and light protection, *12* (Abst.)
and response of skin to ultraviolet radiation, *11* (Abst.)
Tuberculin, hypersensitivity, delayed, in vitro detection of, 116 (Abst.)
passive transfer of, in guinea pigs (Kochan and Bendel), 284
PPD in human and guinea pig sera, circulating 7S and 19S hemagglutinins to, 113 (Abst.)
skin testing, repeated, with 0.005 mg. PPD in children, effect of, 113 (Abst.)
Tuberculin-type reaction, carrier specificity of, to trivalent chromium, *44* (Abst.)
Tumor and skin homografts, antiserum and, interactions of: immunological homograft enhancement, *39* (Abst.)

U

Ulcerative colitis, circulating antibodies to dietary proteins in, *24* (Abst.)
Ultraviolet radiation and triprolidine, response of skin to, *11* (Abst.)
Urticaria, chronic, clinical course of, 105 (Abst.)
idiopathic solar, action spectra in, *4* (Abst.)
pigmentosa, asthma associated with, unusual case (McKee et al.), 38
Urticarial transfusion reactions, 106 (Abst.)

V

Vaccination, measles, circulating interferon after, *28* (Abst.)
Vaccine, bacterial, and infectious asthma, *2* (Abst.)
polyvalent influenza: comparison of jet injection with intradermal and subcutaneous administration, *32* (Abst.)
Vascular reactivity, cutaneous, in atopic children, *35* (Abst.)
Vasculitis, necrotizing, thiazides, cause of? *36* (Abst.)
systemic "allergic," clinical and pathological relationships, *37* (Abst.)
Vectorcardiogram in asthmatic children, posterior orientation of, 109 (Abst.)
Vena cava, superior, syndrome masquerading as angioneurotic edema, 105 (Abst.)
Venoms, venom sac extracts, and whole-insect extracts, comparison of: hymenoptera antigens, *20* (Abst.)
Ventilatory failure, pathophysiology of, *14* (Abst.)
Viral hepatitis and active alcoholic liver disease, immunoglobulin in, *47* (Abst.)

W

Wasp, fractionation of whole body and venom sac extracts for skin testing (Langlois et al.), 359

Y

Yokahama asthma, significance of, *10* (Abst.)

Subject index*

A

Acetylcholine and histamine, clinical significance of bronchial sensitivity in bronchial asthma to (Makino), 127

Adenocortical function during intermittent corticosteroid therapy, *4* (Abst.)

Adjuvant properties, repository and, of alum-precipitated antigens, effect of alum concentration on (Holzman and Norman), 65

Adrenocortical insufficiency, rapid test for, *12* (Abst.)

Aerosol, metered, trial of bronchodilator drugs given by, *21* (Abst.)

Aerosolized dextran, immunologic responses of atopic and normal individuals to (Salvaggio et al.), 31

Aerosols, dexamethasone, intranasal, local action in suppression of hay fever symptoms (Norman et al.), 93

Agammaglobulinemia, Swiss type (alymphocytosis): effect of syngenic bone marrow cells, *5* (Abst.)

Aged population, effects of dosage and influenza vaccine content on antibody response in, *15* (Abst.)

Airborne fungi in Phoenix, Arizona (Goodman et al.), 56

Airway resistance as index of effectiveness of bronchodilating drugs (Feinsilver), 195

Albumin, γA-globulin, γG-globulin, siderophilin, and total protein concentrations in nasal washings, *31* (Abst.)

Algae, green, sensitivity of skin and bronchial mucosa to (Bernstein and Safferman), 166

Allergenic pollens in Bogota, Colombia, South America (Medina and Fernandez), 46

properties of ragweed pollen antigens, in vitro assay (Lichtenstein et al.), 174

Allergens, kapok, *43* (Abst.)

Allergic disease in children, dietary prophylaxis of, *19* (Abst.)

climatic factors in etiology, *10* (Abst.)

phenomena precipitated by muscular effort, *43* (Abst.)

Alum concentration, effect on repository and adjuvant properties of alum-precipitated antigens (Holzman and Norman), 65

Alum-precipitated antigens, effect of alum concentration on repository and adjuvant properties of (Holzman and Norman), 65

Alymphocytosis, Swiss type agammaglobulinemia: effect of syngenic bone marrow cells, *5* (Abst.)

American Academy of Allergy, historian's report (Cohen), 120

Σ-Amino groups, direct reaction of penicillin with, *37* (Abst.)

Anaphylaxis in absence of penicillin sensitivity: penicilloyl-polylysine skin test, *20* (Abst.)

in cat, *22* (Abst.)

Anemia, aplastic, histiocytosis, and erythrodermia in immunologically deficient children: probable human runt disease, *21* (Abst.)

hemolytic, Coombs-positive, caused by penicillin administration, *6* (Abst.)

immunohemolytic, due to antipenicillin antibodies, *6* (Abst.)

Angioneurotic edema, facial edema of vena cava syndrome mistaken for (Angevine and Condemi), 308

Announcements, 63, 193, 252, 360

Antibodies against γ-globulin after repeated blood transfusions, *45* (Abst.)

antipenicillin, immunohemolytic anemia due to, *6* (Abst.)

hemagglutinating, penicillin hypersensitivity and, in workers at penicillin factory, *5* (Abst.)

skin-sensitizing, and γD-globulin, relationship between, in sera of ragweed-sensitive individuals, *38* (Abst.)

tissue, in chronic lupus erythematosus, *11* (Abst.)

Antibody, high levels, antigenicity of soluble protein in presence of, *46* (Abst.)

human, to heterologous serum protein, characterization of (Fink et al.), 84

to intrinsic factor, diagnostic significance, *39* (Abst.)

levels, immunity to influenza related to, *13* (Abst.)

reaginic, physicochemical properties in γA-globulin preparations (Ishizaka and Ishizaka), 108

response in aged population, effects of dosage and influenza vaccine content on, *15* (Abst.)

*July, pp. 1-64; August, pp. 65-126; September, pp. 127-194; October, pp. 195-256; November, pp. 257-320; December, pp. 321-376.

Abstracts: July, pp. *1-8*; August, pp. *9-16*; September, pp. *17-24*; October, pp. *25-32*; November, pp. *33-40*; December, pp. *41-48*.

Antibody-producing capacity in bursectomized chickens, inability of neonatal rabbit thymus to induce, *44* (Abst.)
Antigen(s), alum-precipitated, effect of alum concentration on repository and adjuvant properties of (Holzman and Norman), 65
fractionated, intradermal skin test with; immunodiagnosis of schistosomiasis, *13* (Abst.)
injections, effect on skin reactivity to antigens (Sprecace et al.), 9
pollen, in tissue culture, specific response of human lymphocytes to (Zeitz et al.), 321
ragweed pollen, in vitro assay of allergenic properties of (Lichtenstein et al.), 174
purified, induction of immediate and delayed skin reactivity with emulsion of (Feinberg et al.), 236
several, histamine release from leukocytes of hypersensitive individuals with use of (Pruzansky and Patterson), 315
specific, inhibiting effect of desensitization on release of histamine from guinea pig lung by (Burdon and Schultz), 100
Antigenicity of soluble protein in presence of high levels of antibody, *46* (Abst.)
Antipenicillin antibodies, immunohemolytic anemia due to, *6* (Abst.)
Antispasmodic drugs, effect on endomural bronchial pressures in bronchitis and asthma, *34* (Abst.)
Arizona, Phoenix, airborne fungi in (Goodman et al.), 56
Asthma associated with use of nitrofurantoin, *3* (Abst.)
bronchial, clinical significance of bronchial sensitivity to acetylcholine and histamine in (Makino), 127
metabolism of C^{14} histamine in subjects with (Dowell et al.), 290
and obstructive pulmonary emphysema, effect of unilateral glomectomy on blood gases of patients with, *18* (Abst.)
severe, glomectomy for, *26* (Abst.)
bronchitis and, effect of antispasmodic drugs on endomural bronchial pressures in, *34* (Abst.)
childhood, controlled study of iodotherapy for (Falliers et al.), 183
and cybernetics (Falliers), 264
severe, bronchopulmonary geotrichosis with, *18* (Abst.)
and temperature change, *10* (Abst.)
transient pulmonary eosinophilia and: review of 20 cases, *34* (Abst.)
Asthmatic children, intermittent positive pressure breathing versus Freon-unit nebulized isoproterenol in (Taylor et al.), 257
Atopic dermatitis, history and prognosis (Torsney and Blumstein), 41
Atopic—Cont'd
and nonatopic children, cardiac and vascular reactivity in (Varonier and Hahn), 352
individuals, inflammatory response to histamine in (Cole and Roberts), 26
and normal individuals, immunologic responses to aerosolized dextran (Salvaggio et al.), 31
Autoallergy in generalized eczema, *18* (Abst.)
Autoimmune hemolytic anemia in infants; unsuccessful treatment with thymectomy, *15* (Abst.)
hepatitis, *47* (Abst.)
Autosensitivity, DNA, *30* (Abst.)

B

Beaver, Jennie D., obituary, 254
Biological and immunological factors in host correlated with susceptibility to respiratory infections, *37* (Abst.)
Bite reactions in man, clinical observations: *Culex pipiens molestus* in Israel, *40* (Abst.)
Blamoutier, coseasonal desensitization of pollinosis with scarification method of, *26* (Abst.)
Blood transfusions, antibodies against γ-globulin after repeated, *45* (Abst.)
Bogota, Colombia, South America, allergenic pollens in (Medina and Fernandez), 46
Bone marrow cells, effect on Swiss type agammaglobulinemia (alymphocytosis), *5* (Abst.)
Breathing, intermittent positive pressure, versus Freon-unit nebulized isoproterenol in asthmatic children (Taylor et al.), 257
work of, before and after bronchodilators in patients with emphysema, *44* (Abst.)
Bronchial asthma, clinical significance of bronchial sensitivity to acetylcholine and histamine in (Makino), 127
metabolism of C^{14} histamine in subjects with (Dowell et al.), 290
and obstructive pulmonary emphysema, effect of unilateral glomectomy on blood gases of patients with, *18* (Abst.)
severe, glomectomy for, *26* (Abst.)
mucosa, skin and, sensitivity to green algae (Bernstein and Safferman), 166
sensitivity to acetylcholine and histamine in bronchial asthma, clinical significance (Makino), 127
Bronchitis and asthma, effect of antispasmodic drugs on endomural bronchial pressures in, *34* (Abst.)
Bronchodilating drugs, airway resistance as index of effectiveness (Feinsilver), 195
Bronchodilator drugs given by metered aerosol, trial of, *21* (Abst.)
Bronchodilators, work of breathing before and after, in patients with emphysema, *44* (Abst.)

Broncholpulmonary geotrichosis with severe asthma, *18* (Abst.)
Bursectomized chickens, inability of neonatal rabbit thymus to induce antibody-producing capacity in, *44* (Abst.)

C

Carbon dioxide tension, venous, mixed, in chronic pulmonary failure, effect of artificial ventilation in tank respirators on, *28* (Abst.)
Cardiac and vascular reactivity in atopic and nonatopic children (Varonier and Hahn), 352
Cardiovascular malformations, congenital, eosinophilia in patients with, *47* (Abst.)
Carrier, penetrant, of allergens through intact human skin, dimethylsulfoxide as (Perlman and Wolfe), 299
Cellular factor of delayed hypersensitivity (Kochan et al.), 280
Cellulose, protein-, copolymer, immunization with, *8* (Abst.)
Chemical aspect, new, of penicillin allergy: direct reaction of penicillin with Σ-amino groups, *37* (Abst.)
Chlorogenic acid again (Lowell), 276 (Correspondence)
  causing allergic reactions, nondiffusible allergenic contaminant isolated from samples of (Layton et al.), 268
  comments on allergenicity of (Freedman et al.), 277 (Correspondence)
  reply to comments on allergenicity of (Layton), 279 (Correspondence)
Chlorpheniramine, premedication, effect on reactions to methylglucamine iodipamide (Peters et al.), 74
Citraconic anhydride, eosinophil leukocytes in guinea pig sensitized to: experimental eczema, *8* (Abst.)
Climatic factors in etiology of allergic diseases, *10* (Abst.)
Clinical detection of potential allergic reactor to penicillin by immunologic tests, *38* (Abst.)
Colombia, South America, Bogota, allergenic pollens in (Medina and Fernandez), 46
Color developers, skin disease from, *11* (Abst.)
Complement, serum, assay of second component of, in variety of human diseases (Kaiser and Beall), 330
Congenital cardiovascular malformations, eosinophilia in patients with, *47* (Abst.)
Contact dermatitis, allergic, to new formula to strengthen nails, *34* (Abst.)
  sensitivity, ultrastructure of cells present in lymph nodes during development of, *20* (Abst.)
Contaminant, allergenic, nondiffusible, isolated from samples of chlorogenic acid causing allergic reactions (Layton et al.), 268
Coombs-positive hemolytic anemia caused by penicillin administration, *6* (Abst.)
Cornea, immune response of, to herpes simplex virus (Sery et al.), 338
Coronary, systemic and, hemodynamic effects of pseudoephedrine, *4* (Abst.)
Correspondence, 250, 276
Corticosteroid therapy, intermittent, adenocortical function during, *4* (Abst.)
Corticotrophin, synthetic, preliminary report on therapeutic use of (Zárate and Quinteros), 51
Culex pipiens molestus in Israel: clinical observations on bite reactions in man, *40* (Abst.)
Culture, tissue, specific response of human lymphocytes to pollen antigen in (Zeitz et al.), 321
Cybernetics, asthma and (Falliers), 264

D

Death in status asthmaticus: clinical analysis of 18 cases, *42* (Abst.)
Delayed hypersensitivity to larval antigens of *Trichinella spiralis*, *45* (Abst.)
  reactions, hidden, severe, from insect stings, *36* (Abst.)
  skin reactivity, immediate and, with emulsion of purified ragweed antigen, induction of (Feinberg et al.), 236
Dermatitis, atopic, history and prognosis (Torsney and Blumstein), 41
  contact, allergic, to new formula to strengthen nails, *34* (Abst.)
  lanolin, *43* (Abst.)
  paraben sensitivity, *35* (Abst.)
Desensitization, coseasonal, of pollinosis with scarification method of Blamoutier, *26* (Abst.)
  inhibiting effect on release of histamine from guinea pig lung by specific antigen (Burdon and Schultz), 100
Developers, color, skin disease from, *11* (Abst.)
Dexamethasone aerosols, intranasal, local action in suppression of hay fever symptoms (Norman et al.), 93
Dextran, aerosolized, immunologic responses of atopic and normal individuals to (Salvaggio et al.), 31
Diagnosis of drug allergy, skin window as aid in (Seinfeld and McCombs), 156
Diagnostic significance of antibody to intrinsic factor, *39* (Abst.)
Dietary prophylaxis of allergic disease in children, *19* (Abst.)
Dimethylsulfoxide as penetrant carrier of allergens through intact human skin (Perlman and Wolfe), 299
Diphenylhydantoin-induced hypersensitivity reaction, *3* (Abst.)
Diseases, human, assay of second component of serum complement in variety of (Kaiser and Beall), 330
DNA autosensitivity, *30* (Abst.)

Drug(s) allergy, skin window as aid in diagnosis of (Seinfeld and McCombs), 156
antispasmodic, effect on endomural bronchial pressures in bronchitis and asthma, *34* (Abst.)
bronchodilating, airway resistance as index of effectiveness (Feinsilver), 195
bronchodilator, given by metered aerosol, trial of, *21* (Abst.)
reactions, adverse, epidemiology of; evaluation of penicillin allergy, *28* (Abst.)
Duck-embryo rabies vaccine, sensitization to, produced by prior yellow-fever vaccination, *39* (Abst.)

E

Eczema, experimental: eosinophil leukocytes in guinea pig sensitized to citraconic anhydride, *8* (Abst.)
generalized, autoallergy in, *18* (Abst.)
in Jamaica, *26* (Abst.)
Edema, facial, of vena cava syndrome mistaken for angioneurotic edema (Angevine and Condemi), 308
Emphysema, pulmonary, obstructive, bronchial asthma and, effect of unilateral glomectomy on blood gases of patients with, *18* (Abst.)
work of breathing before and after bronchodilators in patients with, *44* (Abst.)
Endomural bronchial pressures, effect of antispasmodic drugs on, in bronchitis and asthma, *34* (Abst.)
Eosinophil leukocytes in guinea pig sensitized to citraconic anhydride: experimental eczema, *8* (Abst.)
Eosinophilia in patients with congenital cardiovascular malformations, *47* (Abst.)
pulmonary, transient, and asthma: review of 20 cases, *34* (Abst.)
Epidemiology of adverse drug reactions; evaluation of penicillin allergy, *28* (Abst.)
Epinephrine and phenylephrine, topical, systemic reaction to, *24* (Abst.)
Erythema, familial annular, *27* (Abst.)
Erythrodermia, aplastic anemia, and histiocytosis in immunologically deficient children: probable human runt disease, *21* (Abst.)
Experimental disciform keratitis: immune response of cornea to herpes simplex virus (Sery et al.), 338

F

Facial edema of vena cava syndrome mistaken for angioneurotic edema (Angevine and Condemi), 308
Familial annular erythema, *27* (Abst.)
occurrence of chronic obstructive pulmonary disease, 7 (Abst.)
incidence and, of allergy (McKee), 226
tendency toward skin sensitivity to ragweed pollen (Kallio et al.), 241
Feed-back mechanism in immunoglobulin synthesis, *46* (Abst.)
Fenestration, tracheal, for treatment of respiratory insufficiency, *23* (Abst.)
Fluorescence, nuclear, in systemic lupus erythematosus, *46* (Abst.)
Food sensitization, perennial nasal allergy due to, *23* (Abst.)
Fractures, upper limb, as complication of vaccination, *48* (Abst.)
Freon-unit nebulized isoproterenol versus intermittent positive pressure breathing in asthmatic children (Taylor et al.), 257
Fungi, airborne, in Phoenix, Arizona (Goodman et al.), 56
toxic, in tobaccos: mycotoxicosis, *32* (Abst.)

G

Gamma globulin, antibodies against, after repeated blood transfusions, *45* (Abst.)
A-globulin, γG-globulin, albumin, siderophilin, and total protein concentrations in nasal washings, *31* (Abst.)
preparations, physicochemical properties of reaginic antibody in (Ishizaka and Ishizaka), 108
D-globulin, skin-sensitizing antibodies and, relationship between, in sera of ragweed-sensitive individuals, *38* (Abst.)
G-globulin, γA-globulin, albumin, siderophilin, and total protein concentrations in nasal washings, *31* (Abst.)
Geotrichosis, bronchopulmonary, with severe asthma, *18* (Abst.)
Globulin, γA-, physicochemical properties of reaginic antibody in (Ishizaka and Ishizaka), 108
γD, skin-sensitizing antibodies and, relationship between, in sera of ragweed-sensitive individuals, *38* (Abst.)
Glomectomy for severe bronchial asthma, *26* (Abst.)
unilateral, effect on blood gases of patients with bronchial asthma and obstructive pulmonary emphysema, *18* (Abst.)
Glomerular diseases, immunofluorescent study of pathogenic mechanisms in, *13* (Abst.)

H

Hay fever symptoms, local action of intranasal dexamethasone aerosols in suppression of (Norman et al.), 93
Hemagglutinating antibodies, penicillin hypersensitivity and, in workers at penicillin factory, *5* (Abst.)
Hemodynamic effects, systemic and coronary, of pseudoephedrine, *4* (Abst.)
Hemolytic anemia, autoimmune, in infant; unsuccessful treatment with thymectomy, *15* (Abst.)

Hemolytic anemia—Cont'd
Coombs-positive, caused by penicillin administration, *6* (Abst.)
Heparin, wheezing due to pulmonary embolism treated with, *16* (Abst.)
Hepatitis attributed to sulfamethoxazole, *47* (Abst.)
autoimmune, *47* (Abst.)
Herpes simplex virus, immune response of cornea to (Sery et al.), 338
Heterologous serum protein, characterization of human antibody to (Fink et al.), 84
Histamine, acetylcholine and, clinical significance of bronchial sensitivity in bronchial asthma to (Makino), 127
C^{14}, metabolism in subjects with bronchial asthma (Dowell et al.), 290
inflammatory response in atopic and nonatopic individuals to (Cole and Roberts), 26
release from guinea pig lung by specific antigen, inhibiting effect of desensitization on (Burdon and Schultz), 100
leukocytes of hypersensitive individuals with use of several antigens (Pruzansky and Patterson), 315
Histamine-binding power of human serum from allergic and nonallergic subjects, *6* (Abst.)
Histiocytosis, aplastic anemia, and erythrodermia in immunologically deficient children: probable human runt disease, *21* (Abst.)
Histochemical analysis of mononuclear cell infiltrates of skin with particular reference to delayed hypersensitivity, *22* (Abst.)
Human lymphocytes, specific response to pollen antigen in tissue culture (Zeitz et al.), 321
17-Hydroxycorticosteroids, suppression in plasma and urine by triamcinolone, *36* (Abst.)
Hyperimmunization with pertussis vaccine, diffuse vasculitis and death after, *20* (Abst.)
Hypersensitive individuals, histamine release from leukocytes of, with use of several antigens (Pruzansky and Patterson), 315
Hypersensitivity, delayed, cellular factor of (Kochan et al.), 280
to larval antigens of *Trichinella spiralis*, *45* (Abst.)
leukocytic, in vitro, rheumatic fever and, attempts to produce with group A streptococci, *30* (Abst.)
penicillin, and hemagglutinating antibodies in workers at penicillin factory, *5* (Abst.)
reaction, diphenylhydantoin-induced, *3* (Abst.)
to streptococci in patients with recurrent uveitis, *5* (Abst.)
Hypogammaglobulinemia, primary and secondary, immunoglobulin levels in patients with (Claman et al.), 215
Hypogammaglobulinemic state, acquired, immunochemical evidence for development of, *29* (Abst.)

I

Idiopathic thrombocytopenic purpura in childhood, *44* (Abst.)
Immediate and delayed skin reactivity with emulsion of purified ragweed antigen, induction of (Feinberg et al.), 236
Immune response of cornea to herpes simplex virus (Sery et al.), 338
Immunity to influenza related to antibody levels, *13* (Abst.)
of oral mucosa in epidermal sensitization to mercury, *2* (Abst.)
Immunization program, influenza, evaluation, *21* (Abst.)
with protein-cellulose copolymer, *8* (Abst.)
Immunized mice, production of tolerance and effects of immunosuppression in (Claman and Bronsky), 208
Immunochemical evidence for development of acquired hypogammaglobulinemic state, *29* (Abst.)
Immunodiagnosis of schistosomiasis; intradermal skin tests with fractionated antigens, *13* (Abst.)
Immunofluorescent studies in pemphigus vulgaris, *2* (Abst.)
study of pathogenic mechanisms in glomerular diseases, *13* (Abst.)
Immunoglobulin levels in patients with hypogammaglobulinemia (Claman et al.), 215
synthesis, feed-back mechanism in, *46* (Abst.)
Immunohemolytic anemia due to antipenicillin antibodies, *6* (Abst.)
Immunologic responses of atopic and normal individuals to aerosolized dextran (Salvaggio et al.), 31
tests, clinical detection of potential allergic reactor to penicillin by, *38* (Abst.)
Immunological and biological factors in host correlated with susceptibility to respiratory infections, *37* (Abst.)
Immunosuppression, production of tolerance in immunized mice and effects of (Claman and Bronsky), 208
Incidence and familial occurrence of allergy (McKee), 226
Inflammatory response to histamine in atopic and nonatopic individuals (Cole and Roberts), 26
Influenza, immunity related to antibody levels, *13* (Abst.)
immunization program, evaluation, *21* (Abst.)
vaccine content, dosage and, effects on antibody response in aged population, *15* (Abst.)
Inhalant allergy to screwworm fly, *14* (Abst.)
Injections, antigen, effect on skin reactivity to antigens (Sprecace et al.), 9
Insect bite, Schönlein-Henoch syndrome following, *35* (Abst.)

Insect—Cont'd
stinging, allergic response to. Fractionation of whole body and venom sac extracts of yellow jacket (Arbesman et al.), 1
stings, severe hidden delayed reactions from, *36* (Abst.)
Insufficiency, adrenocortical, rapid test for, *12* (Abst.)
respiratory, tracheal fenestration for treatment of, *23* (Abst.)
Intermittent positive pressure breathing (IPPB) in acute ventilatory failure, *7* (Abst.)
versus Freon-unit nebulized isoproterenol in asthmatic children (Taylor et al.), 257
Intranasal dexamethasone aerosols, local action in suppression of hay fever symptoms (Norman et al.), 93
Intrinsic factor, diagnostic significance of antibody to, *39* (Abst.)
Iodotherapy for childhood asthma, controlled study (Falliers et al.), 183
Isoproterenol, nebulized, Freon-unit, versus intermittent positive pressure breathing in asthmatic children (Taylor et al.), 257

J

Jamaica, eczema in, *26* (Abst.)

K

Kantor, S. Zvi, obituary, 255
Kapok allergens, *43* (Abst.)
Keratitis, disciform, experimental: immune response of cornea to herpes simplex virus (Sery et al.), 338

L

Lanolin dermatitis, *43* (Abst.)
Larval antigens of *Trichinella spiralis*, delayed hypersensitivity to, *45* (Abst.)
Leukocytes, eosinophil, in guinea pig sensitized to citraconic anhydride: experimental eczema, *8* (Abst.)
of hypersensitive individuals, histamine release from, with use of several antigens (Pruzansky and Patterson), 315
Leukocytic hypersensitivity, in vitro, rheumatic fever and, attempts to produce with group A streptococci, *30* (Abst.)
Lung, guinea pig, inhibiting effect of desensitization on release, by specific antigen, of histamine from (Burdon and Schultz), 100
right middle lobe syndrome in children, *36* (Abst.)
Lupus erythematosus, chronic, tissue antibodies in, *11* (Abst.)
systemic, nuclear fluorescence in, *46* (Abst.)
Luthmers, Albert H., obituary, 64
Lymphocytes, human, specific response to pollen antigen in tissue culture (Zeitz et al.), 321

M

McGrath, Robert Sterling, obituary, 256
Mast cells and necrosis, *28* (Abst.)
Mechanical ventilation in status asthmaticus, *42* (Abst.)
Mercury, immunity of oral mucosa in epidermal sensitization to, *2* (Abst.)
Metabolism of C^{14} histamine in subjects with bronchial asthma (Dowell et al.), 290
Methylglucamine iodipamide, effect of chlorpheniramine premedication on reactions to (Peters et al.), 74
Migraine and allergy, *27* (Abst.)
Mononuclear cell infiltrates of skin with particular reference to delayed hypersensitivity, histochemical analysis of, *22* (Abst.)
Mosquito, *Culex pipiens molestus* in Israel: clinical observations on bite reactions in man, *40* (Abst.)
Mucosa, bronchial, skin and, sensitivity to green algae (Bernstein and Safferman), 166
oral, immunity in epidermal sensitization to mercury, *2* (Abst.)
Muscular effort, allergic phenomena precipitated by, *43* (Abst.)
Mycobacterial skin tests, new aspects; tuberculin reactions due to organisms other than *Mycobacterium tuberculosis*, *30* (Abst.)
Mycobacterium tuberculosis, tuberculin reactions due to organisms other than, *30* (Abst.)
Mycotoxicosis: toxic fungi in tobaccos, *32* (Abst.)

N

Nasal allergy, perennial, due to food sensitization, *23* (Abst.)
polyp, large, removal, *23* (Abst.)
secretion, proteins in, *31* (Abst.)
Nebulized isoproterenol, Freon-unit, versus intermittent positive pressure breathing in asthmatic children (Taylor et al.), 257
Necrosis, mast cells and, *28* (Abst.)
Neonatal rabbit thymus, inability to induce antibody-producing capacity in bursectomized chickens, *44* (Abst.)
Nitrofurantoin, asthma associated with use of, *3* (Abst.)
Nonatopic, atopic and, children, cardiac and vascular reactivity in (Varonier and Hahn), 352
Nuclear fluorescence in systemic lupus erythematosus, *46* (Abst.)

O

Obituaries, 64, 194, 254
Oleoresins, open versus closed patch testing with, *3* (Abst.)
Oral mucosa, immunity in epidermal sensitization to mercury, *2* (Abst.)
Otitis externa, etiological factors, *32* (Abst.)

P

Paraben sensitivity, *35* (Abst.)
Patch testing with oleoresins, open versus closed, *3* (Abst.)
Pathogenic mechanisms, immunofluorescent study in glomerular diseases, *13* (Abst.)
Pemphigus vulgaris, immunofluorescent studies in, *2* (Abst.)
Penicillin administration, Coombs-positive hemolytic anemia caused by, *6* (Abst.)
  allergy: direct reaction of penicillin with Σ-amino groups, *37* (Abst.)
    evaluation of; studies on epidemiology of adverse drug reactions, *28* (Abst.)
  hypersensitivity and hemagglutinating antibodies in workers at penicillin factory, *5* (Abst.)
  potential allergic reactor to, clinical detection by immunologic tests, *38* (Abst.)
  sensitivity, *14* (Abst.)
    anaphylaxis in absence of: penicilloyl-polylysine skin test, *20* (Abst.)
Penicilloyl-polylysine skin test: anaplylaxis in absence of penicillin sensitivity, *20* (Abst.)
Pertussis vaccine, diffuse vasculitis and death after hyperimmunization with, *20* (Abst.)
p-Phenylenediamine, sensitization to, *10* (Abst.)
Phenylephrine, epinephrine and, topical, systemic reaction to, *24* (Abst.)
Phoenix, Arizona, airborne fungi in (Goodman et al.), 56
Physicochemical properties of reaginic antibody in γA-globulin preparations (Ishizaka and Ishizaka), 108
Pine pollen pneumoconiosis in rat and relation to sarcoidosis, *16* (Abst.)
Pneumoconiosis, pine pollen, in rat and relation to sarcoidosis, *16* (Abst.)
Poliovirus vaccine, live type 1, and other viruses, effects on tuberculin test, *29* (Abst.)
Pollen(s), allergenic, in Bogota, Colombia, South America (Medina and Fernandez), 46
  antigen in tissue culture, specific response of human lymphocytes to (Zeitz et al.), 321
  pine, pneumoconiosis in rat and relation to sarcoidosis, *16* (Abst.)
  ragweed, antigens, in vitro assay of allergenic properties (Lichtenstein et al.), 174
    familial tendency toward skin sensitivity to (Kallio et al.), 241
Pollinosis, coseasonal desensitization with scarification method of Blamoutier, *26* (Abst.)
Polyp, nasal, large, removal, *23* (Abst.)
Positive pressure breathing, intermittent (IPPB), in acute ventilatory failure, *7* (Abst.)
PPD, sensitization to, *10* (Abst.)
Prophylaxis, dietary of allergic disease in children, *19* (Abst.)
Protein(s) in nasal secretion, *31* (Abst.)
  serum, heterologous, characterization of human antibody to (Fink et al.), 84
  soluble, antigenicity in presence of high levels of antibody, *46* (Abst.)
Protein-cellulose copolymer, immunization with, *8* (Abst.)
Pseudoephedrine, systemic and coronary hemodynamic effects of, *4* (Abst.)
Psychological variables in allergic disease: appraisal of methodology (Feingold et al.), 143
Pulmonary disease, chronic obstructive, familial occurrence of, *7* (Abst.)
  embolism, wheezing due to, treated with heparin, *16* (Abst.)
  emphysema, obstructive, bronchial asthma and, effect of unilateral glomectomy on blood gases of patients with, *18* (Abst.)
  eosinophilia, transient, and asthma: review of 20 cases, *34* (Abst.)
  failure, chronic, effect of artificial ventilation in tank respirators on mixed venous carbon dioxide tension in, *28* (Abst.)
Purpura, thrombocytopenic, idiopathic, in childhood, *44* (Abst.)

R

Rabies vaccine, duck-embryo, sensitization to, produced by prior yellow-fever vaccination, *39* (Abst.)
Ragweed antigen, purified, induction of immediate and delayed skin reactivity with emulsion of (Feinberg et al.), 236
  pollen antigens, in vitro assay of allergenic properties (Lichtenstein et al.), 174
    familial tendency toward skin sensitivity to (Kallio et al.), 241
Ragweed-sensitive individuals, relationship between skin-sensitizing antibodies and γD-globulin in sera of, *38* (Abst.)
Reaginic antibody, physicochemical properties in γA-globulin preparations (Ishizaka and Ishizaka), 108
Reagins, human, detection by Schultz-Dale technique with human appendix, *31* (Abst.)
Respiratory infections, susceptibility to, correlated to immunological and biological factors in host, *37* (Abst.)
  insufficiency, tracheal fenestration for treatment of, *23* (Abst.)
Rheumatic fever and in vitro leukocytic hypersensitivity, attempts to produce with group A streptococci, *30* (Abst.)
Right middle lobe syndrome in children, *36* (Abst.)

Runt disease, human, probable: aplastic anemia, histiocytosis, and erythrodermia in immunologically deficient children, *21* (Abst.)

S

Sarcoidosis, pine pollen pneumoconiosis in rat and relation to, *16* (Abst.)
Scarification method of Blamoutier, coseasonal desensitization of pollinosis with, *26* (Abst.)
Schistosomiasis, immunodiagnosis; intradermal skin tests with fractionated antigens, *13* (Abst.)
Schönlein-Henoch syndrome following insect bite, *35* (Abst.)
Schultz-Dale technique, detection of human reagins with human appendix by, *31* (Abst.)
Screwworm fly, inhalant allergy to, *14* (Abst.)
Sensitivity, bronchial, to acetylcholine and histamine in bronchial asthma, clinical significance (Makino), 127
  contact, ultrastructure of cells present in lymph nodes during development of, *20* (Abst.)
  penicillin, *14* (Abst.)
  of skin and bronchial mucosa to green algae (Bernstein and Safferman), 166
  to ragweed pollen, familial tendency toward (Kallio et al.), 241
Sensitization, epidermal, to mercury, immunity of oral mucosa in, *2* (Abst.)
  food, perennial nasal allergy due to, *23* (Abst.)
  to p-phenylenediamine, *10* (Abst.)
Serum complement, assay of second component of, in variety of human diseases (Kaiser and Beall), 330
Siderophilin, γA-globulin, γG-globulin, albumin, and total protein concentrations in nasal washings, *31* (Abst.)
Skin and bronchial mucosa, sensitivity to green algae (Bernstein and Safferman), 166
  disease from color developers, *11* (Abst.)
  histochemical analysis of mononuclear cell infiltrates of, with particular reference to delayed hypersensitivity, *22* (Abst.)
  human, intact, dimethylsulfoxide as penetrant carrier of allergens through (Perlman and Wolfe), 299
  reactivity to antigens, effect of antigen injections on (Spreeace et al.), 9
  weighted temperature elevation as measure of, *12* (Abst.)
  sensitivity to ragweed pollen, familial tendency toward (Kallio et al.), 241
  tests, intradermal, with fractionated antigens; immunodiagnosis of schistosomiasis, *13* (Abst.)
  mycobacterial, new aspects of; tuberculin reactions due to organisms other than *Mycobacterium tuberculosis*, *30* (Abst.)
Skin test—Cont'd
  penicilloyl-polylysine: anaphylaxis in absence of penicillin sensitivity, *20* (Abst.)
  wheal reaction, allergic, influence of triamcinolone on, *7* (Abst.)
  window: aid in diagnosis of drug allergy (Seinfeld and McCombs), 156
Skin-sensitizing antibodies and γD-globulin, relationship between, in sera of ragweed-sensitive individuals, *38* (Abst.)
Status asthmaticus, death in: clinical analysis of 18 cases, *42* (Abst.)
  mechanical ventilation in, *42* (Abst.)
Stenbuck, Frederick, obituary, 194
Stinging insects, allergic response to. Fractionation of whole body and venom sac extracts of yellow jacket (Arbesman et al.), 1
Streptococci, group A, attempts to produce rheumatic fever and in vitro leukocytic hypersensitivity with, *30* (Abst.)
  hypersensitivity in patients with recurrent uveitis, *5* (Abst.)
Stuart, George James, obituary, 254
Sulfamethoxazole, hepatitis attributed to, *47* (Abst.)
Swiss type agammaglobulinemia (alymphocytosis): effect of syngenic bone marrow cells, *5* (Abst.)
Systemic and coronary hemodynamic effects of pseudoephedrine, *4* (Abst.)
  reaction to topical epinephrine and phenylephrine, *24* (Abst.)

T

Temperature change, asthma and, *10* (Abst.)
  elevation, weighted, measure of skin reactivity, *12* (Abst.)
Therapeutic use of synthetic corticotrophin, preliminary report (Zárate and Quinteros), 51
Thrombocytopenic purpura, idiopathic, in childhood, *44* (Abst.)
Thymectomy, unsuccessful treatment of autoimmune hemolytic anemia with, *15* (Abst.)
Thymus, rabbit, neonatal, inability to induce antibody-producing capacity in bursectomized chickens, *44* (Abst.)
Tissue antibodies in chronic lupus erythematosus, *11* (Abst.)
  culture, specific response of human lymphocytes to pollen antigen in (Zeitz et al.), 321
Tobaccos, toxic fungi in: mycotoxicosis, *32* (Abst.)
Tolerance, production in immunized mice and effects of immunosuppression (Claman and Bronsky), 208
Tracheal fenestration for treatment of respiratory insufficiency, *23* (Abst.)
Transfusions, blood, antibodies against γ-globulin after repeated, *45* (Abst.)

Triamcinolone, influence on allergic skin wheal reaction, *7* (Abst.)
suppression of 17-hydroxycorticosteroids in plasma and urine by, *36* (Abst.)
Trichinella spiralis, delayed hypersensitivity to larval antigens of, *45* (Abst.)
Tuberculin reactions due to organisms other than *Mycobacterium tuberculosis*, *30* (Abst.)
test, effects of live type 1 poliovirus vaccine and other viruses on, *29* (Abst.)

U

Uveitis, recurrent, hypersensitivity to streptococci in patients with, *5* (Abst.)

V

Vaccination, upper limb fractures as complication of, *48* (Abst.)
yellow-fever, sensitization to duck-embryo rabies vaccine produced by, *39* (Abst.)
Vaccine content, influenza, dosage and, effects on antibody response in aged population, *15* (Abst.)
pertussis, diffuse vasculitis and death after hyperimmunization with, *20* (Abst.)
poliovirus, live type 1, and other viruses, effects on tuberculin test, *29* (Abst.)
Vascular, cardiac and, reactivity in atopic and nonatopic children (Varonier and Hahn), 352
Vasculitis, diffuse, and death after hyperimmunization with pertussis vaccine, *20* (Abst.)
Vena cava syndrome, facial edema of, mistaken for angioneurotic edema (Angevine and Condemi), 308
Ventilation, artificial, in tank respirators, effect on mixed venous carbon dioxide tension in chronic pulmonary failure, *28* (Abst.)
mechanical, in status asthmaticus, *42* (Abst.)
Ventilatory failure, acute, intermittent positive pressure breathing (IPPB) in, *7* (Abst.)
Virus, herpes simplex, immune response of cornea to (Sery et al.), 338
Viruses, other, live type 1 poliovirus vaccine and, effects on tuberculin test, *29* (Abst.)

W

Weighted temperature elevation, measure of skin reactivity, *12* (Abst.)
Wheezing due to pulmonary embolism, treated with heparin, *16* (Abst.)

Y

Yellow jacket, fractionation of whole body and venom sac extracts for skin testing (Arbesman et al.), 1
Yellow-fever vaccination, sensitization to duck-embryo rabies vaccine produced by, *39* (Abst.)
